Compost Manufacturing Alliance

Facility: Cedar Grove, Everett, Washington (EV82)

Expiry Date: June 3, 2022

Cedar Grove/CMA-1 Acceptance Notification

StixToGo

PO Box 2360

Eagle, ID 83616

Thank you for your continued commitment to developing commercially compostable food service packaging in support of zero waste programs, and for working directly with compost manufacturing facilities to ensure products you manufacture are acceptable in real world operation sand processes.

The Compost Manufacturing Alliance has conducted document review and field testing of your product in test EV82. We are pleased to inform you that the following item is now accepted and is considered compostable at Cedar Grove facilities. Congratulations!

StixToGo/Yantai Haiwan Plastic Tableware Products Accepted at Cedar Grove Facilities	
Product ID#	Product Description
011092380	Compostable Splash Stick

Please note that accepted submittal items are suitable for commercial collection, but may not be suitable for residential curbside collection. Cedar Grove Composting and the Compost Manufacturing Alliance reserve the right to require periodic re-evaluation for recertification as early as one year after date of initial acceptance.

If you have any questions or require any additional or clarifying information, please contact me by e-mail at janet@composterapproved.com.

Sincerely,

Janet L. Thoman
